# Mary Queen of Apostles

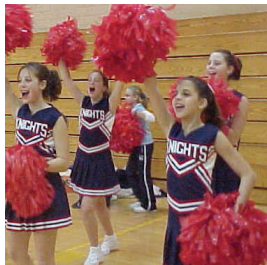

## School

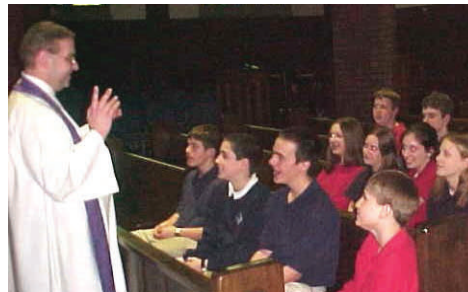

Serving the Greater New Kensington Area and surrounding communities, Mary Queen of Apostles

School forms the mind, body and soul for the promise of tomorrow, a new generation of disciples of Jesus Christ.

In striving to excite children about education while preparing them to be life-long learners, Mary Queen of Apostles School offers a solid academic program in a caring, supportive environment. As a regional Catholic school of the Diocese of Greensburg, we celebrate our faith, serve others, and educate the total person.

We at Mary Queen of Apostles School, stress the academic and spiritual development of each child in a Christ-centered learning community, and we joyfully open our doors to students of all faiths.
