

## Explore Robotics Club

Dear Parent/Guardian,

Explore Robotics Club is open to students in 2<sup>nd</sup> and 3<sup>rd</sup> grades. This club meets directly after school on selected Fridays for 12 total sessions at the Freeport School Site in the STEM room. This program will begin at 2:45pm and end at 4:00pm. Club dates can be found on the **All Events Calendar** or **FLL Robotics Calendar** on the school website. Be sure to note that FLL Robotics is DIFFERENT than Explore Robotics meeting!

We will be focusing on the fundamentals of engineering as we explore real world problems, learn to design and codes and create unique solutions made with LEGO bricks and powered by LEGO Education WeDo 2.0. The children will work in a team setting collaborating and communicating to build, learn and play together. Children will be encouraged in every session to work with their teammates, listen to each other, take turns and share ideas and pieces.

For any questions on curriculum, please go to [www.firstlegoleague.org](http://www.firstlegoleague.org). For any questions on our team, please contact Lauren Carroll at 304-672-3339.

Please fill out form below and return to your child's homeroom teacher.
