

## **Gardening Club**

Dear Parent/Guardian:

Let's Get Gardening! Do you like getting your hands dirty?

The gardening club will be responsible for designing, developing, and maintaining the outdoor classroom garden space and adding a little pizzazz to the existing gardens on campus. Students will learn about types of flowers plants, pollinator gardens, composting, preserving our harvest(canning), and seed preservation. We will begin meeting during the fall to plan our gardens and begin some planting. We will start back up, full swing, in the spring. This club will meet intermittently over the summer months to maintain our gardens and collect the harvest. Come wearing old clothes and bring your green thumb!

The club is for those in Grades 4-8 and will generally meet on Saturday from 10:00-11:30. The moderator is Mrs. Ondrizek.

Come wearing old clothes and bring your green thumb! The dates of meetings will be listed on the school activities calendar. We pray for sunshine but in case of rain, an indoor learning activity will be planned. Please check the Gardening calendar or the All Events Calendar for specific dates at [www.mqaschool.org](http://www.mqaschool.org).
